## SUMMARY

Enthusiastic Web Developer with professional experience specializing in front-end and back-end development. Procient in creating responsive and user-friendly websites and web applications. Currently pursuing a Bachelor of Computer Applications (BCA) at United University, now in the third year. Adept at working in fast-paced environments and collaborating with cross-functional teams to deliver high-quality solutions.

## EXPERIENCE

### Front-end developer, KEPLER VOICE

Jan 2024 - Jul 2024

Created and maintained web applications using React.js.  
Worked with RESTful APIs to integrate backend services.  
Enhanced user experience by implementing interactive elements.  
Participated in code reviews and maintained code quality standards.

### Web developer, Tap for Tech

Aug 2023 - Oct 2023

Developed responsive websites using HTML, CSS, and JavaScript.  
Collaborated with designers to create user-friendly interfaces.  
Optimized web pages for maximum speed and scalability.  
Implemented best practices in web design and development.

## PROJECTS

### FEMCARE

Developed a responsive web application for womens health and wellness.  
Utilized HTML, CSS, and JavaScript to create user-friendly interfaces.  
Implemented features for tracking health metrics and providing personalized content.

### Swiggy clone

Created a clone of the Swiggy food delivery app using React.js and Bootstrap.  
Developed functionalities for browsing restaurants, viewing menus, and placing orders.  
Integrated Google Maps API for location-based services.

### Netflix clone

Built a Netix-like streaming service web application using React.js and CSS.  
Implemented user authentication, content browsing, and video playback features.  
Utilized Firebase for backend services and data storage.

## EDUCATION

### Bachelor of computer application,

Sep 2022 - Present

United University

### commerece,

Jul 2020 - Jul 2021

Vishnu bhagwan public school
